Destroyer y realce en las costuras

ELABORATION PROCESS

The design for the sample is elaborated, after obtaining the sample we proceed to make the cut of the units, after this process the garment is made and then we continue with the laundry procedure where the tones are given to the garment, then we make the skinning of the jean and we proceed to place the taches and the markings, after that the garment goes through a quality process and then it is tied in the polypropylene bag to be packed in a bag of 12 units.

RECOMMENDATIONS AND SPECIAL CARE WITH THE GARMENT

Hand wash and rinse with plenty of water, do not bleach, dry in the shade, iron at medium temperature.
