 **SYNONYMS:**

120 mL (With 15 mL syrup cup) and 3,800 mL. Using plastic containers with a safety lid.

 **MAIN USE DESCRIPTION:**

**MOUTHWASH - VIOXIN 0.12% CLORHEXIDINE** It's indicated as a mouthwash for daily use as a complement to oral hygiene, after brushing and flossing. Due to its liquid form, it gets into areas that cannot be reached by normal brushing. It made to prevent, reduce and / or eliminate the growth of harmful bacteria, and in cases of a lot of dental plaque creation. It's recommended to use it twice a day as part of your regular hygiene care.

 **RECOMENDED USE:**

Rinse your mouth with 15-20 mL of the solution for 30-45 seconds and switch the product from side to side and after this procedure, discard the solution. Apply the product directly from the bottle to your mouth after normal brushing. DO NOT mix with water. For best results, do not eat or drink for at least 3 hours immediately after rinsing, in order to preserve the residual effect of the solution.
