SOLUTIONS FOR EVENTS

virtual or in-person

CART - LIVE CAPTIONING

We provide live transcription by substituting the personal simultaneous interpretation equipment for text or subtitles in the target language, which are shown on the facilities screens or remotely through platforms such as Zoom, Webex Meetings, etc. This reduces costs and eliminates the need to rent equipment.

SIMULTANEOUS INTERPRETATION

We have a highly trained team in charge of translating live events in different languages such as English, Portuguese, French, Italian, German, Chinese, Mandarin, Japanese, Arabic, Russian, etc. The interpretation service can be provided in person or remotely.

STREAMING

We provide streaming services for live events, with audiovisual production and cutting-edge technology equipment.

ILS

We offer Colombian Sign Language Interpretation for people with hearing disabilities in conferences, accountability and any other meetings.

RECORDING

We record audio and video in meetings such as hearings, meetings, committees, etc. Subsequently, we edit and/or transcribe such content.

"Accessibility allows us to tap into everyone's potential"

Debra Ruh

ATmedios was born in 2002 as an answer to the rising need of making information, entertainment and culture accessible to blind and deaf people, as well as people that speak other languages and to the general public. So, we started offering Closed Captioning and Audio Description services but later on, we added translation, simultaneous interpretation and subtitling.

Due to market needs, we expanded our offering with new products and services for the audiovisual sector and later, we engaged in the event sector by offering transcription and live captioning services (CART), Colombian Sign Language Interpretation, video and sound recording and transmission via streaming through different platforms.

We focus our efforts on finding the best solutions for each client's projects along with an excellent staff that works with responsibility, commitment and efficiency. We have an organizational infrastructure that allows us to offer the best quality, excellent response times and the support that our clients are expecting.
